

CITY OF BATAVIA

DATE: March 28, 2013
TO: City Services Committee
FROM: Gary Holm
SUBJECT: Resolution #13-55-R Approving Solid Waste Services Contract with Advanced Disposal Services Solid Waste Midwest, LLC

At the January 8, 2013 committee meeting Staff presented various solid waste service options for discussion. It was decided to seek bids for the following service options:

- Option #1 - Sticker program with recycling bins (basically the same program we currently have)
- Option #2 - Sticker program with recycling toter (replaces recycling bins with rolling toters)
- Option #3 - Toter program for both waste and recycling

Bids were advertised publically and on March 27 they were opened and read aloud. A total of five vendors submitted bids. Two of the vendors, Waste Management and Groot Industries, failed to submit pricing for required items. Therefore, their bids were disqualified. The bid results from all bidders are attached for your reference.

The City required all vendors to provide pricing for the current collection days, Monday, Thursday and Friday. Contractors were given the option of providing alternate bids for other collection days. Below is a summary of the low bids for the various options:

Current Collection Days

- Option #1 – Advanced Disposal
- Option #2 – Flood Brothers*
- Option #3 – Advanced Disposal

Alternate Collection Days

- Option #1 – Advanced Disposal
- Option #2 – Advanced Disposal
- Option #3 – Advanced Disposal

* - Advanced Disposal submitted an Alternate Bid that provided lower pricing for Option #2 for the current collection days. Advanced Disposal's alternate bid was based on a condition that the City of Geneva did not award to them. In other words, Advanced cannot serve both Batavia and Geneva on Thursdays and Fridays at the lower price. If Geneva elects to go with a different vendor, then Advanced will honor their Alternate Bid with lower prices for the current collection days.

Recommendation

As outlined in detail at the January 8 meeting, Staff is recommending against the current recycling bin program. Even though it would be slightly less expensive, the recycling bin program has resulted in numerous operational issues over the past several years. The industry is moving towards toters and Staff feels that now is a good time to make a transition.

Option #2 allows for a pay-per-use approach and provides recycling totes. This option is financially advantageous for those households who do not dispose of a lot of waste. This option maintains the current sticker program which the community is used to. One of the disadvantages to this option is the inconvenience of having to purchase, store and place stickers on each waste item. Unlimited recycling is included with this option.

Option #3 provides both waste and recycling totes for a fixed monthly fee. This option allows for unlimited waste and recycling disposal. This option is advantageous for those households that dispose of more waste. This option is more costly for those households that dispose of less waste. Based on first year pricing for Option #2, the fixed monthly fee is equivalent to approximately six (6) waste stickers per month.

Staff recommends Resolution #13-55-R Approving a Solid Waste Services Contract with Advanced Disposal Services Solid Waste Midwest, LLC.

It is our understanding that Geneva may also utilize the services of Advanced Disposal. Therefore, **Staff recommends that the City's collection days be modified to Monday, Tuesday, Wednesday** in order to take advantage of lower pricing and increased volume passing through our transfer station from Geneva's waste.

Finally, **Staff recommends against Option #1 and in support of Option #2 or Option #3.** We feel that both Option #2 & #3 have their advantages and disadvantages and that it is really a community value judgment whether the convenience and improved aesthetics of a tote program justify the increased monthly cost for those individuals who dispose of less garbage.

The Contractor shall be responsible for all collection and transportation costs necessary to bring refuse and yard waste to a disposal site, and shall be responsible for the payment of all tipping fees for refuse and yard waste. The term "disposal" shall have different meanings. For refuse, it shall mean landfilling; for yard waste, it shall mean composting or an equivalent agronomic application. The term "disposal" shall not include "processing" of recyclables. All Recyclable Materials shall be collected, separated and otherwise treated so as to facilitate the sale of said materials to end-use markets, or Recyclable Material brokers. No materials collected as Recyclable Materials may be deposited in a landfill or waste incinerator, except to the extent those materials collected as Recyclable Materials are "contaminated", as that term is generally used in the recycling industry, and thus unacceptable to the end-use markets or Recyclable Material brokers. Except to the extent "contaminated", all Recyclable Materials collected shall be recycled regardless of the income received or the cost to the Contractor resulting from the sale of said Recyclable Materials. The Contractor shall be responsible for all collection and transportation costs necessary to bring recyclable to a processing site, and shall

be responsible for all processing costs as further specified in this section.

All refuse, recyclables, and yard waste collection shall be removed from the City as soon as the materials are collected, but in any event no later than 7:00 p.m. on the date of collection. The refuse and yard waste shall be disposed of, and the recyclables taken for processing.

Upon request of the City, proof that such facility complies with all laws and regulations governing such facilities shall be furnished to the City. The City reserves the right to visit and inspect such facilities with reasonable notice. This shall not preclude the Contractor from changing the disposal location to a reasonable alternative site, but the Contractor shall notify the City of any changes. (c) **Recyclables Requirements**

Throughout the terms of this contract, the Contractor shall own, co-own, rent, lease, control, or have access to a suitable storage/processing facility for the purpose of sorting and preparing the collected recyclable materials to be marketed and sold, or the Contractor shall transport each recyclable material collected to either a processor(s) or broker(s) experienced in processing and marketing recyclables, or to a market itself. The name and location of the facility(ies) of the Contractor, or its processor(s) or broker(s), or market(s), shall be furnished to the City. The City shall have the right to visit and inspect the storage, processing, broker and market locations during regular business hours with reasonable notice. The Contractor shall not be locked into taking the recyclables solely to the processor, broker, or market listed for each material collected. It is the City's intent to have assurance from the Contractor that markets are available for the recyclables collected.

The Contractor shall be responsible for payment of all necessary processing costs for recyclables. Processing costs are defined to include, but are not limited to: any sorting, removal of contaminants and waste residues, intermediate storage or consolidation, transfer, crushing and/or baling costs, as well as necessary supplies therefore as may apply prior to the passing of title to the recyclables to another party for recycling.

The Contractor shall retain 100% of the proceeds from the sale of recyclable material. As a condition of retaining the proceeds, the Contractor shall bear sole responsibility for the risk of changing market values, including negative values, of recyclable materials. Upon request of the City, Contractor shall provide evidence deemed appropriate, of sale or transfer of title of the recyclable materials. It is the intent of this contract that recyclables shall be recycled and not landfilled or incinerated.

The Contractor shall not be responsible for collection of items that are not properly prepared. Customers are also responsible for placing disposal units close to the curb (or in those areas without curbs, placing them in an equivalent position), so that they are easily accessible to the Contractor. The City agrees to enact and reasonably enforce such ordinances as are necessary to achieve compliance by its customers with such requirements.

The Contractor shall return all containers at each stop to the general location at which they were found, except that bins shall not be placed in the middle of driveways, in driveway aprons or near the curb in such a manner as to risk their falling into the street or being hit by a vehicle.

The Contractor shall handle all containers with reasonable care to avoid damage and spillage. Any contents spilled or items broken by collection crews onto parkways, premises, curb-and-gutters or streets shall be immediately cleaned up in a good workmanlike manner. In order to clean up, a broom and shovel shall be required on each vehicle. The Contractor shall not be responsible for collection or cleaning up refuse, recyclables or yard waste litter that has blown, fallen, leaked or scattered from bags, cans, bins or other containers through no fault of the collection crew.

20. MISSED PICK-UPS AND COMPLAINTS

The Contractor shall promptly investigate and courteously resolve all complaints of missed pick-ups, and shall arrange for collection of missed pick-ups found to be valid within twenty-four (24) hours after a complaint or notification is received. In the event this occurs on a day preceding a holiday or weekend, the complaint shall be serviced on the next working day. The Contractor and the City agree to jointly establish reasonable administrative regulation for the investigation and resolution of alleged missed pick-ups.

The Contractor agrees to provide notices to be left at the resident's property clearly explaining the reason(s) services (refuse, yard waste or recycling collection) were not provided, and what actions, if any, can be taken by the resident in the future to ensure collection of materials. Such notices are to be designed and printed by the Contractor but shall be approved by the City.

In the event of valid complaints for other incident, including, but not limited to, breakage of glass during collection or recyclables; items or refuse, recyclables and/or yard waste dropped during collection; and the like are not cleaned up by the collection crew, the Contractor shall promptly arrange for clean-up within twenty-four (24) hours after a complaint or notification is received.

All vehicles shall be maintained in good working order and appearance, free of rust, and shall be clean at the start of each collection day. No vehicle shall be operated on City streets which leaks any fluids from the engine or compaction mechanism. In the event that any vehicle is not properly operable, a substitute vehicle shall immediately be provided that complies with the terms herein. All vehicles shall display the name of the Contractor, a local phone number, and a vehicle identification number that is clearly visible on both sides.

All vehicles shall be fully enclosed, leak-proof, and operated in such a way that no refuse, recyclables, or yard waste leaks, spills or blows off the vehicles. Should any refuse, recyclables, or yard waste leak, spill or blow off a vehicle due to the vehicle operator's failure to properly monitor the load or to close opening, or due to failure of any mechanism, the Contractor shall be responsible for collecting or cleaning up such litter or fluids. If such litter or fluids are not cleaned up after notice (verbal or written) from the City, the City may clean up same, and the City may bill the cost to the Contractor for services rendered. The decision of any City resident to hire a private contractor for special pick-ups shall have no effect on the terms of this contract.

26. RIGHT TO REQUIRE PERFORMANCE

The failure of the City at any time to require performance by the Contractor of any specifications in this contract shall in no way affect the right of the City hereafter to enforce same. In addition, the front of the sticker shall have the word "address" with a space for customers to write their address if they so desire, and shall also have the date this contract expires listed as an expiration date. The back of the sticker shall list instructions for proper use of the stickers as well as other information pertinent to the yard waste "pay-per-bag" program including observed holidays.

The Contractor is responsible for all accounting of yard waste stickers. The City recommends the use of serial numbers to aid in accounting and deter counterfeiting. The City shall not be held liable for any counterfeiting of yard waste stickers that may occur.

Yard waste stickers shall have a good pressure sensitive adhesive which will adhere to disposal unit containers in all weather conditions.

Honoring All Yard Waste Stickers and Bags

The Contractor shall agree to honor all yard waste disposal stickers purchased by customers throughout the term of this contract, regardless of the price at which the yard waste disposal stickers were purchased.

The Contractor shall provide the same level of service for previously purchased yard waste disposal stickers as provided for yard waste disposal stickers sold at an adjusted sale price. For this reason yard waste stickers shall be produced without a price on them.

The City reserves the right to add a fixed administrative surcharge to all Contractor's quoted yard waste sticker. Should the City add an administrative surcharge to the yard waste disposal sticker sale price, the Contractor shall submit a monthly accounting of total sticker sales and remit a check to the City equal to the amount of the administrative surcharge multiplied by the monthly accounting of total sticker sales. Such a report and remittance shall be due no later than fifteen (15) days after the close of the month. The City reserves the right to change the amount of the surcharge and shall notify the Contractor at least sixty (60) days prior to a scheduled yard waste sticker price adjustment of a new administrative surcharge.

Wheeled Yard Waste Toter Rental Service Option

The Contractor shall provide customers with an option to rent sixty-five (65) gallon toters for yard waste collection. Such rental shall be in addition to the sticker-based program. Any yard waste within the toter(s) shall be collected for the base toter rental and service fee. No additional yard waste stickers are required to be placed on the toter(s). Yard waste placed outside of the toter(s) shall require a separate yard waste sticker.

The Contractor shall be responsible for the purchase and distribution of all yard waste toters, and any bookkeeping and billing procedures associated with the toter rental service. The contractor shall be responsible for directly billing customers for the toter rental service option.

Quoted rental fees, service charges and/or deposits associated with totter service shall remain in effect throughout the term of this contract.

The Contractor shall be responsible for the initial distribution of new totters to all customers and the distribution of additional yard waste totters to newly constructed households located within the Batavia boundaries.
